

Sample Audit Report - Rate Parity Verification

HASH VERIFIED EVIDENCE SAMPLE

脱敏样张 / Demonstration only. Not a legal conclusion. Not a complete evidence bundle.

1. Market Comparison Snapshot

Same public OTA offer view, controlled country routing, repeated bounded-window samples. Property and offer details partially redacted for demonstration.

| Country View | Displayed USD | Gross-est. USD | Tax/Fee Display | Status |
|--------------------------|---------------|----------------|-------------------------------|-----------------|
| SG Singapore | 5,671.36 x10 | 5,671.36 x10 | All-in display | Verified |
| US United States | 5,220.00 x10 | 5,999.85 mean | Included + excluded fee split | Verified |
| GB United Kingdom | 6,112.32 x10 | 6,112.32 x10 | All-in display | Verified |

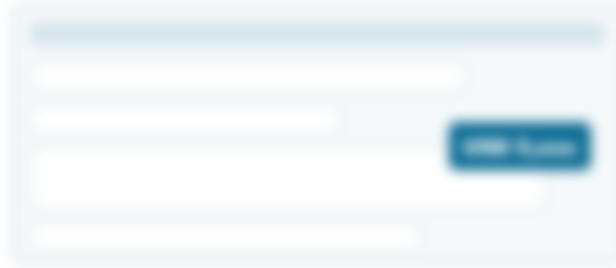

2. Geo Evidence

| | |
|---------------------|---------------------------------------------|
| Geo preflight | SG / US / GB observed as requested |
| Fingerprint control | Coordinator-owned canonical request context |
| Sampling status | 30 / 30 clean captures in sample run |

3. Redacted Target Offer Screenshot

The full rendered screenshot remains the evidentiary anchor. This sample uses visual redaction and blur to avoid sharing raw platform details unsolicited.

Sample crop is intentionally blurred. Client delivery includes selected screenshots, target-block crops, extraction notes, and manifest references under agreed scope.

4. Condition Equivalence Gate

| | |
|----------------|------------------------------------------------|
| Room / offer | [Redacted] |
| Cancellation | Matched visible policy |
| Breakfast | Paid / not included signal |
| Taxes / fees | Mismatch detected |
| Base-rate lens | Null where evidence does not support stripping |

5. SHA-256 Verification

Hashes bind report, manifest, HTML, screenshot, crop, and extraction summary. Values below are sample/report-level references.

6. Executive Notes

| | |
|----------------|----------------------------------------------------------------------------------|
| Primary signal | Different country views show different price disclosure logic. |
| Client value | Supports OTA display review, direct-booking discussion, and internal channel QA. |
| Claim boundary | No legal conclusion. No platform-wide claim from one scoped audit. |
| Next step | Run client-approved diagnostic sprint across selected offer and markets. |
